**Subject:** RE: Error While trying to Submit Information to EPA

Hi Molly,

Thank you for the prompt action. The issue does appear to be resolved as I was able to submit our permit application files. I have received confirmation emails of successful submission across all four modules.

Thank you again for your assistance and we look forward to continue collaboration as we progress through the permitting process.

Best Regards,  
-Rebecca

Hi Rebecca,

There was an error with the phase formatting. This has been resolved and you should now be able to submit through the GSDT. Please let us know if you experience any other issues with the system.

Best regards,  
Molly

**Subject:** Error While trying to Submit Information to EPA

Hi again David and Molly,

We have uploaded our files to the GS Data Tool for our Mendota Pre-Construction Permit Application. Within the Data Tool I have validated that all fields are complete and ready for submission. However, when I hit the "Submit Information to EPA" I receive an error message (below and attached):

"Project Phase Validation"

"Invalid project phase specified: Phase1Pre-Construction  
Submission cannot be completed."

The screenshot shows the 'EPA Class VI UIC Project Plan Submissions' web application. The top navigation bar includes tabs for 'Welcome', 'Testing and Monitoring', 'Injection Well Plugging', 'PISC and Site Closure', 'Emergency and Remedial Response', and 'Complete Submission'. The main content area has a heading 'Use this tab to complete your submission and send the information to EPA.' Below this is a 'Validate Required Fields' button. A section titled 'Please select your name from the list below.' contains a list of names, with 'Rebecca Hollis' selected. Below the list is a text area for 'Comments regarding this submission (optional)'. A large error message box is overlaid on the page, titled 'Project Phase Validation'. The message states: 'Invalid project phase specified: Phase1Pre-Construction. Submission cannot be completed.' with an 'OK' button. At the bottom of the form, there is a checkbox for 'By clicking "Submit Information to EPA" I certify under penalty of law that this information is true and accurate to the best of my knowledge and belief. Based on my inquiry of the person or entity who furnished the information, I am aware that there are no omissions or material misstatements of fact. I am aware that this information is being submitted to EPA for use in enforcement actions.' and a 'Submit Information to EPA' button.

Unfortunately this same error is occurring across all the module we are attempting to submit, e.g. Project Information and Tracking, AOR and CA, Project Plan Submission, etc.

I checked the site's Dashboard or Operating Landing Page and could not find a way to modify the project phase specified: Phase1Pre-Construction. Have you seen this error before or know how I may correct this?

Any advise you could offer would be most appreciated. Please feel free to call to discuss if that is easier.

Thank you again,

-Rebecca
